Introduction to Gifted Services in DVUSD

November 14, 2013, 5:30 PM-7:00 PM

at the Deer Valley District Office, Governing Board Room

Donna Campbell, M.Ed, has been Deer Valley's consultant and provider of professional development in gifted education for 5 years. As a former classroom teacher, a gifted specialist and district gifted coordinator, Donna has over 25 years of experience advocating for gifted students. Currently, Donna serves as President of the Arizona Association for Gifted and Talented (AAGT). Donna will discuss a variety of topics of interest for parents of gifted students.

Kim Lanese, M.Ed, is the DVUSD Gifted Services Specialist. She is a parent and former teacher of gifted students and a member of the AAGT Board of Directors. She will give an overview of options in DVUSD for gifted students in grades K-12.

Dr. Sylvia Rimm

Teaching and Parenting for Success

Dr. Rimm is a psychologist, author, speaker, columnist, parenting specialist, and gifted children advocate. She will share strategies for parents and teachers of gifted students to prevent underperformance and help our brightest students reach their potential.

Her publications include:

- Why Bright Kids Get Poor Grades
- How to Parent so Children Will Learn
- See Jane Win
- How Jane Won

Monday, February 10, 2013

At Barry Goldwater High School Lecture Hall

Teacher Session: 4:00-5:30

Parent Session: 6:30-8:00

Dr. Amy Serin

Gifted Testing and Identification: What does it all mean?

February 18, 2014, 6:00-7:30 at the Deer Valley District Office Governing Board Room

Dr. Serin has a PhD in Clinical Psychology with a specialty in Pediatric Neuropsychology from The Fielding Institute in Santa Barbara, California. She conducts psychological and neuropsychological evaluations for ages 4 through adult for ADHD, learning disabilities, IQ, traumatic brain injury, anxiety, depression, autism spectrum disorders and giftedness. Her practice at The Serin Center offers an array of therapies and services with a focus on gifted populations. She will talk about gifted testing and identification, and what those Cognitive Abilities scores really mean.
